THE NEW SELF-OPENING SQUARE PAPER BAG

Is now, for the first time, given to the public after eight years of the most assiduous and expensive experimenting to perfect the machinery on which it is made.

It is the first really Square and Flat Bottom Bag ever produced by machinery, although square bags so-called have been here to fore made.

For a machine to do what is necessary, to crease, fold and paste paper into the form required, to make what in fact is a collapsed box, is a wonderful achievement, which has been hitherto considered impossible.

ITS SUPERIORITY OVER ALL OTHER BAGS CONSISTS:

FIRST—In the fact that it is SELF-OPENING. The grocer merely has to grasp one side of the opening and give it a flip through the air as he lifts it from his counter or rack, and it at once becomes a perfectly square box, which will stand upon its bottom. It requires no manipulation inside, which is necessary with all other bags in order to bring them to shape, at a great loss of the grocer's valuable time.

SECOND—In the better shape of a bundle of the bags, and in a saving of room on the grocer's counter or shelf thereby.

THIRD—In the shape and symmetry of the package when filled.

FOURTH—The bag, having no folds or loose pockets inside or outside its bottom, will empty out clean, and not a particle of material is wasted or carried away in the outside fold to be spilled over the floor.

In short, the bag speaks for itself, and a trial will convince anyone that it is the most perfect bag ever produced.

The Machinery by which these Bags are made is covered by a number of recent valuable Patents, which will be protected at all hazards.

ST. LAWRENCE HALL,

MONTREAL, CAN.

For the past 34 years this **Hotel**, familiarly known as the "**St. Lawrence**," has been a household word to all travellers on the Continent of North America, and has been patronized by all the Royal and Noble Personages who have visited the City of Montreal.

This Hotel, including the entire block, which is admirably situated, being in the very heart of the City, and contiguous to the General Post Office, Public Buildings and other places of business, has recently been acquired by Henry Hogan, the former proprietor, who has handsomely and appropriately decorated and renovated the interior, and completely refitted the whole of the apartments with new furniture, comprising 100 new rooms, and making the present number of apartments 250. A new and elegant Passenger Elevator has also been added, and the Halls and Public Rooms are lighted by Electric and Incandescent lights, making it the most attractively lighted Hotel in the Dominion.

This Hotel is managed by **Mr. Samuel Montgomery**, under the immediate personal supervision of **Mr. Hogan**, than whom no one is better qualified to conduct an hostelry of such magnitude as the **St. Lawrence Hall**, and no one has gained a better reputation as an obliging, generous and considerate host.

Hotel Coaches in attendance on arrival of all Trains and Steamers.

All Baggage checks should be given to the Porters in attendance.

TO OUR PATRONS.

IN introducing our OTTAWA CITY DIRECTORY for 1891-92, although, no doubt, errors will be found, we feel justly entitled to claim that we are issuing the most complete and correct directory ever issued in the City of Ottawa. Every part of the work has been done by men who fully understand their business and with great care. Mr. Woodburn, whose interest we purchased, did our printing, and although we would have been much better pleased had it been done in less time on the whole, the work was very satisfactory. We are aware of the fact that our book is out earlier than usual, but we will still do better in this line in future issues.

We are presenting our subscribers with a neat map of Ottawa that will be found very useful in locating streets. Find name of street in the alphabetical list, on left hand margin see figure and letter, which will give location at once. These, with other maps, will be on sale at MESSRS. JAMES HOPE & Co's Book Store, cor. Sparks and Elgin Streets.

We most respectfully solicit the assistance of the people of Ottawa in our endeavour to make OTTAWA CITY DIRECTORY second to no other City Directory. Our aim is to give as good a book as possible and at a low price. In order to do this, we must have the assistance of our patrons in carrying out rules that are actually necessary. Our subscription price is our lowest price and the same to all. No books delivered otherwise than C.O.D. Books printed to order only. Should any remain on our hands they will be for sale at MESSRS. JAMES HOPE & Co's; price will be \$3.00 net cash. We have had many years experience in this line of business, and know that the above rules are in the interest of our patrons as well as ourselves.

Last year the number of names given in the Directory were 15,126 not 17,126, as a mistake of 2,000 was made in the addition. This year we have 1,070 names more than last, making the number of names in 1891 Directory 16,196; this multiplied by 3 would give a population for Ottawa of 48,588. We have not yet received the official figures from the Census Enumerators, and will have to be content with leaving a blank space where they can be inserted when issued.

Census taken 1891 gives Ottawa's population at.....

All of the above is most respectfully submitted.

DESCRIPTIVE OF OTTAWA.

A prosperous and thriving city of Ontario, in the County of Carleton, the administrative Capital of the Dominion of Canada, is situated at the outlet of the Rideau River, on the S. side of the Ottawa, 45 m. N. of Prescott, 95 m. NE. of Kingston, 255 m. NE. of Toronto, 126 m. WNW. of Montreal, and 450 m. from New York. Lat. $45^{\circ} 20' N.$, long. $75^{\circ} 48' W.$ The Rideau Canal divides the city into two portions—the Upper and Lower Town. The Government buildings, which stand on an elevated terrace overlooking the River, are built in the Italian Gothic style, and have an imposing appearance. The Parliament buildings are 500 ft. long, and the two departmental buildings are 375 ft. long. Behind the centre tower is the library, a detached circular building after the plan of the British Museum, and capable of holding 300,000 volumes. The streets of Ottawa are well laid out, spacious, and well lighted, and contain many elegant buildings. There are numerous churches of various denominations, and a number of educational establishments and charitable institutions. Among these are the R.C. College, the Normal School, the Mechanics' Institute, and the Ladies' College. Above the city are the famous Chaudiere Falls on the Ottawa, which is here spanned by a fine bridge, connecting the city with Hull, P.Q. From its situation, Ottawa possesses unrivalled facilities for commerce, and has become the centre of the great lumber trade of the Ottawa and its tributaries. The Ottawa is a large and important river of the Dominion, rises about lat. $48^{\circ} 30' N.$, long. $80^{\circ} W.$, and flows 300 m. SW., then 400 m. SE., in a tortuous course, to the St. Lawrence, which it enters above Montreal. During its course, it passes through several lakes, whose waters it drains; and it is augmented by numerous rivers and smaller streams, the principal of which are the Gatineau, 420 m. long; the Rivière du Lièvre, 260 m., the Madawaska, 210 m.; the Coulonge, 160 m.; the Petewawa, 140 m.; the Black River, 120 m.; the Bonnechère, 110 m.; the Rouge, 90 m.; the Mattawa, 44 m.; and the Rideau River, the Canal of which connects the City of Ottawa with Kingston. The drainage basin of the Ottawa has an area of about 80,000 sq. m. It flows through a forest region, rich in red and white pine, and large quantities of timber are cut on its banks and on those of its tributaries. The city was founded in 1727, and was originally called Bytown; it received its present name in 1854, and became the Dominion Capital in 1858. Several thriving villages lie on its outskirts. The city is divided into seven wards, has a splendid system of waterworks, an efficient Fire Brigade, Electric Street Railways, etc., etc. Population in 1881, 27,410; 1891, 50,000.
